Gary, this is my last correspondence with the contractor this afternoon. About 730 pm he acknowledged receipt and cc'd about 6 different people.

Subject: CES

Mickey,

Thank you for talking with me today. There are a few issues that I would like clarification on, but first, please send me a note confirming receipt of this email.

<!--[if !supportLists]-->1) <!--[endif]-->Is there any water (or anything else) flowing off the property currently (as of 230pm 3/21/14)?

<!--[if !supportLists]-->2) <!--[endif]-->What steps have you taken to keep future rains from leaving the property? OR how are you going to monitor future runoff? If you feel like you can let water leave the property, I will need to see a storm water monitoring plan (what constituents you plan on sampling for, how often, and what the plan is if water doesn't meet the levels that we'd be aiming for)

<!--[if !supportLists]-->3) <!--[endif]-->I understand the foul odor is associated with the water somehow. Can you explain the relationship?

I'd like a response addressing the above by 9:00 pm this evening. Thank you.

Mike Davis
